**SUPPLIES NEEDED:**

***As we move into the final 10 weeks of the school year, we have exhausted our stock of tissue, paper towels and sanitizing wipes. Anything you are willing and able to provide would be tremendously appreciated. Please forward any supplies you can donate after Spring Break.***

***Thank you kindly in advance!***

## **KNOW YOUR STATUS. STAY SAFE!** 😊

Families are encouraged to have their child take a Covid 19 test to ensure they know their child's status. Covid testing for CPS students and staff takes place on Wednesdays. Students can safely self-administer, and results are provided 48-72 hours after testing. Use the following link to complete the one-time registration:

<https://home.color.com/covid/sign-up/start?partner=tf-car-609837-students>

FOR STUDENTS THAT TRAVEL DURING SPRING BREAK....

**Domestic Travel:** Before travel, **unvaccinated individuals** traveling to a high-risk ("orange") state should: Get tested 1-3 days prior to departure. Click for high-risk states: <https://www.chicago.gov/city/en/sites/covid-19/home/emergency-travel-order.html>:

While traveling:

- ALL individuals regardless of vaccination status should wear a mask on planes, buses, trains, and other forms of public transportation traveling into, within, or out of the United States and while indoors at U.S. transportation hubs such as airports and stations.
- Avoid crowds as much as you can and wash your hands often or use hand sanitizer.
- After travel, **unvaccinated individuals** returning from a high-risk ("orange") state should:
- Get tested with a viral test 3-5 days after travel AND stay home and self-quarantine for a full 5 days.
- If you test negative or do not get tested, stay home and self-quarantine for the full 5 days; you can leave your house after 5 days and should continue to wear a mask around others for 5 more days. Students who have a mask exemption must stay home for the full 10 days.
- If your test is positive, isolate yourself to protect others from getting infected.
- Avoid being around people who are at increased risk for severe illness for 10 days, whether you get tested or not.

**Fully vaccinated persons** (returning travelers who live or work in Chicago, or visitors to Chicago) who have traveled domestically are not required to quarantine if they are:

- asymptomatic; and
- Fully vaccinated (i.e., are  $\geq 2$  weeks following receipt of the second dose in a two-dose COVID-19 vaccine series or  $\geq 2$  weeks following receipt of 1 dose of a single-dose COVID-19 vaccine).

**Fully vaccinated travelers** must monitor their health for 10 days after travel and if they experience symptoms potentially consistent with COVID-19, they must self-isolate until clinical evaluation and COVID testing.

### **International Travel**

Check the [CDC website](#) for what to do before you travel internationally.

- If you are **fully vaccinated** and returning from international travel, get tested with a viral test 3-5 days after travel & self-monitor for COVID-19 symptoms; isolate and get tested if you develop symptoms. Stay home if symptomatic and awaiting results.
- If you are **NOT fully vaccinated**, get tested with a viral test 3-5 days after travel AND self-quarantine at home for a full 5 days after travel.
- Even if you test negative, stay home and self-quarantine for the full 5 days.
